Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-14 and 22-28 are rejected under 35 U.S.C. 102(b) as being anticipated by USPN 5,758,327 granted to Gardner et al., for the same reasons as given in section 2 of the Office Action dated 10/28/03.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 15-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gardner et al. as applied to claims 1-7 above, in view of USPN 5,793,972 granted to Shane, for the same reasons as given in section 4 of the Office Action dated 10/28/03.

Response to Arguments

5. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., "sending an unapproved order to a vendor prior to confirming and authorizing the order," (page 2, lines 12-13 of the amendment filed 12 February 2004)) are not recited in the rejected claim(s). In fact, the claims do not specify any particular order in which

the steps are to be performed, and use of the term "comprising" would allow a method including other steps inserted before or after those in the claims to read on the claimed invention. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

The examiner further notes that Gardener et al. contemplate the authorization step (step 54 of Figure 2) occurring in series or in parallel (col. 7, lines 44-48) and thus the exact sequence of performance of step 54 is flexible. Further, it is clear that in the method of Gardener et al., the order list (i.e., a non confidential attachment disclosing the items to be ordered, prepared in advance of the actual purchase order) is available to the vendor prior to the authorization step.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
